METHOD
Method

Nationally representative landline telephone sample of 2,274 seniors 65+ conducted July 22 – August 4, 2013. The margin of error (MOE) for the full sample is ±2.1 percentage points (pps). We discuss the following groups in this report:

- **All with prescription drug coverage** (N=2,002 MOE is ±2.2 pps.)
- **All with Medicare Part D coverage (both PDP and MA-PD plans)** (N=901 MOE is ±3.6 pps.)
- **Medicare PDP (stand-alone) plans** (N=444 MOE is ±4.6 pps.)
- **Medicare Advantage (MA-PD) plans** (N=457 MOE is ±4.6 pps.)
- **Low income <$15K** (N=419 MOE is ±4.8 pps.)
- **Take 6+ prescriptions** (N=294 MOE is ±5.7 pps.)
- **Have a disability** (N=245 MOE is ±6.3 pps.)
- **Have Medicaid** (N=146 MOE is ±8.1 pps.)
- **African-Americans** (N=103 MOE is ±10 pps.)
- **Hispanics** (N=100 MOE is ±10 pps.)

Prescription Drug Coverage Among Seniors

90% have prescription drug coverage — 10% do not.

We interviewed seniors with Medicare, with the primary focus on seniors who have Medicare Part D coverage – 64% of all seniors.
Tracking is based on identical questions asked 11 times since the program was launched in 2006.

Executive Summary

1. The vast majority of seniors report being satisfied with their Medicare prescription drug plans.
   - Across all demographic groups studied, satisfaction is high.
   - Reasons for satisfaction include both emotional and functional benefits—most seniors feel peace of mind, feel they are getting what their plans said they would deliver, their costs are affordable, and their medicines are covered.
   - Without Medicare drug benefits, large numbers of seniors feel they would not be able to fill all their prescriptions and would be more likely to cut back or stop taking medicines.

2. Most seniors with a Medicare prescription drug plan recommend Medicare prescription drug coverage to others considering enrollment.

3. About 1 in 3 seniors with plans and 1 in 4 without plans say they will shop around to compare plans during this year’s Open Enrollment.
   - Those enrolled in a plan who do not intend to shop around mainly say so because they are satisfied with their current coverage.

4. There are gaps in awareness of useful plan comparison tools:
   - Few are aware of the Medicare 5-star plan quality ratings that are part of the online Medicare Plan Finder tool;
   - Few are aware that there are state counselors who can assist them with Medicare plan comparisons.
DETAILED FINDINGS
Satisfaction with Medicare
Medicare continues to be popular with seniors.

Over 9 in 10 are satisfied, with nearly 6 in 10 very satisfied.

Overall, how satisfied are you with your Medicare health care coverage these days?
Satisfaction with Medicare Part D
Seniors give very high satisfaction ratings to Medicare Part D.

Nine out of 10 are satisfied and 6 in 10 are very satisfied.

Overall, how satisfied are you with your prescription drug coverage?

Base: (N=901) Those enrolled in a Medicare drug plan (stand-alone or Medicare Advantage)
Medicare prescription drug plan enrollees—including those who use their plans—are highly satisfied.

Base: (N=901) Those enrolled in a Medicare drug plan (stand-alone or Medicare Advantage)

Base: N=785 Medicare drug plan enrollees who received medicines through plan

*Overall, how satisfied are you with your prescription drug coverage?*
Seniors’ satisfaction with Medicare Part D has been high and trending upward over the last 8 years. 

More than 3 in 4 seniors have reported satisfaction with their plan in each of 11 surveys.

Overall, how satisfied are you with your prescription drug coverage?

Base: Those enrolled in a Medicare drug plan (stand-alone or Medicare Advantage)
Historically high levels of satisfaction have been achieved once again.

Overall satisfaction is up 12 points since March 2006 and the intensity of that satisfaction has increased 9 points during the same time (those saying “very satisfied”).

**Total satisfied (very + somewhat)**

- Mar. 2006: 78%
- Sept. 2006: 83%
- Jan. 2007: 81%
- Sept. 2007: 89%
- Sept. 2008: 90%
- Mar. 2009: 84%
- Oct. 2009: 88%
- Aug. 2010: 84%
- Oct. 2011: 88%
- Aug. 2012: 90%
- Aug. 2013: 90%

Overall, how satisfied are you with your prescription drug coverage?

**Very satisfied**

- Mar. 2006: 50%
- Sept. 2006: 47%
- Jan. 2007: 37%
- Sept. 2007: 60%
- Sept. 2008: 63%
- Mar. 2009: 55%
- Oct. 2009: 59%
- Aug. 2010: 53%
- Oct. 2011: 52%
- Aug. 2012: 59%
- Aug. 2013: 59%

Overall, how satisfied are you with your prescription drug coverage?

Base: Those enrolled in a Medicare drug plan (stand-alone or Medicare Advantage)
Because what I pay isn’t much and they reimburse me. Everything is taken care of – very easy and the mail order is here in a matter of days.

“I have no problems getting my prescription medicines. I have to pay very little out of pocket.”

“Because I’ve been able to afford what isn’t being paid for.”

“I haven’t had any problems, so I’m definitely satisfied.”

“I don’t have to pay a lot of money.”

“It’s real good coverage. It covers most of the costs of my drugs.”

What are the main reasons you’re satisfied?
Primary Reasons **Not** Satisfied with Medicare Prescription Drug Coverage (Unaided)

What are the main reasons you’re **not** satisfied?

**Main Reasons Not Satisfied (9%)**

- **Costs are too high**: 14%
- **Coverage is too limited**: 11%

*“I have to have something or else I’d be drowning in debt with the number of pills I have.”*

*“I feel I shouldn’t be paying as much as I do for prescriptions.”*

*“It costs me a lot. Now I pay more because of insurance.”*

*“Some of the drugs are very expensive.”*

*“Each year the coverage decreases.”*

*“Because a lot of the drugs are not generic and are not covered by the plan. Some of the ones that are covered keep going up.”*

*“Because they don’t cover that much. They claim they do, but they don’t.”*

*“Because it’s supposed to cover medicines and it doesn’t. I’m paying a lot of money for drugs out of my pocket.”*

Base: (N=78) Those who are not satisfied with their drug plan
Across demographic groups satisfaction is very high.

Overall, how satisfied are you with your prescription drug coverage?

Base: (N=901) Those enrolled in a Medicare drug plan (stand-alone or Medicare Advantage)
Beneficiaries with low incomes, dual eligibles, and people living with a disability are also satisfied.

Overall, how satisfied are you with your prescription drug coverage?

- All Seniors with Medicare Rx:
  - Satisfied: 90%
  - Not satisfied: 9%

- Less than $15K:
  - Satisfied: 93%
  - Not satisfied: 6%

- Dual Eligibles:
  - Satisfied: 96%
  - Not satisfied: 3%

- People with a Disability:
  - Satisfied: 87%
  - Not satisfied: 13%

Base: (N=901) Those enrolled in a Medicare drug plan (stand-alone or Medicare Advantage)
Satisfaction with Medicare Part D is popular across the political spectrum.

**Overall, how satisfied are you with your prescription drug coverage?**

 Generally speaking, do you think of yourself as a Republican, a Democrat, an independent, or something else? [If independent, other, or don’t know] Do you think of yourself as closer to the Republican Party or the Democratic Party?

Base: (N=901) Those enrolled in a Medicare drug plan (stand-alone or Medicare Advantage)
Those with low out-of-pocket costs and low premiums are the most satisfied with their Medicare drug coverage.

Overall, how satisfied are you with your prescription drug coverage?

Satisfied  Not satisfied

Base: (N=901) Those enrolled in a Medicare drug plan (stand-alone or Medicare Advantage)
The vast majority of those who use their plans say they work well.

More than 7 in 10 say their plan works very well.

Have you received any medicines through your Medicare prescription drug plan?

86% Received meds
12% Have not

IF RECEIVED MEDICINES THROUGH PLAN (N=785): And how well has your prescription drug plan worked for you—has it worked very well, somewhat well, not too well, or not very well at all?
Nearly all with stand-alone and Medicare Advantage plans say their plans work well—most say VERY well.

I’m going to read a list of words that may or may not describe how you’re feeling about your prescription drug coverage these days. Tell me if that describes how you’re feeling a great deal, some, or not at all

Base: Those enrolled in a Medicare drug plan (Stand-Alone or Medicare Advantage)
Without Medicare drug coverage, most say they would face higher costs and challenges getting prescriptions.

Without a Medicare drug plan, 62% say they would cut back or stop taking medicine – up 9 points since 2012.

I’m going to read you some statements to hear how you feel about having Medicare prescription drug coverage. For each one, think about your situation before you had Medicare prescription drug coverage and tell me if you strongly agree, somewhat agree, somewhat disagree, or strongly disagree.
Nearly 3 in 4 agree they are better off with a Medicare prescription drug plan than before they had one. Those who say they are better off is up 6 points from Spring 2006.

“Overall, I’m better off now than before I had Medicare prescription drug coverage”

I’m going to read you some statements to hear how you feel now that you have enrolled in a Medicare prescription drug plan. For each one, tell me if you strongly agree, somewhat agree, somewhat disagree, or strongly disagree.

Base: (N=901) Those enrolled in a Medicare drug plan (Stand-Alone or Medicare Advantage)
2014 Open Enrollment
Nearly 9 in 10 enrollees would recommend Medicare drug coverage.

Those who would recommend Medicare drug coverage is up 5 points over the year.

If you were giving advice to someone who is considering enrolling in Medicare for the first time, would you tell them to sign up for a Medicare prescription drug plan, or not?

Base: (N=901) Those enrolled in a Medicare drug plan (Stand-Alone or Medicare Advantage)
Two-thirds of beneficiaries say a variety of plan options is important to them.

How important is it to you personally to have a variety of plans to compare and choose from - is it very important, somewhat important, not too important or not at all important?

Base: (N=901) Those enrolled in a Medicare drug plan (Stand-Alone or Medicare Advantage)
More than a third of enrollees are likely to shop around during this year’s Open Enrollment period.

Forty-five percent – about the same as last year – say they are not at all likely to shop around.

This year, open enrollment is from October 15th to December 7th. How likely are you to shop around and compare Medicare health or prescription drug plans this year—very likely, somewhat likely, not too likely, or not at all likely?
Those already enrolled in a Medicare drug plan are more likely to shop around than others.

This year, open enrollment is from October 15th to December 7th. How likely are you to shop around and compare Medicare health or prescription drug plans this year—very likely, somewhat likely, not too likely, or not at all likely?
Cost, coverage, and choice of pharmacies are most important to seniors when comparing plans.

The co-pays or co-insurance amounts
- Very important: 69%
- Somewhat important: 18%
- Total: 88%

Coverage information, including what drugs are covered and at which level or tier they are covered
- Very important: 69%
- Somewhat important: 18%
- Total: 87%

The pharmacies you can use to get your medicines
- Very important: 69%
- Somewhat important: 17%
- Total: 86%

The monthly premium
- Very important: 68%
- Somewhat important: 16%
- Total: 84%

Information about customer service
- Very important: 52%
- Somewhat important: 30%
- Total: 82%

Information about the quality of the plan, such as quality ratings published by Medicare
- Very important: 51%
- Somewhat important: 30%
- Total: 81%

Information about personal experiences with a plan from family and friends
- Very important: 31%
- Somewhat important: 35%
- Total: 66%

I’m going to read you some information that you may like to look at when you are comparing prescription drug plans to determine which one is right for you. For each one, tell me how important that is to you personally—very important, somewhat important, not too important, not at all important. (RANDOMIZE)
More than a third of enrollees have shopped around and compared plans since they first enrolled in Part D.

Those who do not take prescriptions and those very satisfied are among the least likely to have shopped around; those not satisfied and those paying higher premiums and out-of-pocket costs are among the most likely to shop around.

Since you first enrolled in your Medicare prescription drug plan, have you ever shopped around and compared plans?

<table>

</tr>
</tbody>
</table>

Base: (N=901) Those enrolled in a Medicare drug plan (Stand-Alone or Medicare Advantage)
Almost a third have switched plans since they first enrolled. Of those, nearly 8 in 10 said it was not difficult to do. Only 5% said it was very difficult.

Since you first enrolled in a Medicare health or prescription drug plan, have you ever switched from one plan to another?

IF SWITCHED PLAN (29%, N=264): How difficult was it for you to switch to a different Medicare prescription drug plan—very difficult, somewhat difficult, not too difficult, or not at all difficult?
Satisfaction with a current plan is the primary reason enrollees choose not to shop around.

Those saying “Yes, a reason” for not shopping around for a plan this year

- I’m satisfied with my current plan. 92%
- I’m not confident that I would make a better choice than the plan I have now. 56%
- Most plans are about the same so there is no reason to compare them. 43%
- I find it too difficult to sort through plan information. 37%

**IF NOT TOO OR NOT AT ALL LIKELY TO SHOP AROUND AND COMPARE PLANS (N=551) : I’m going to read you a list. For each one, tell me if that is a reason you are not likely to shop around and compare plans.**
Among those without a Medicare drug plan (10%), the main reason for not enrolling is lack of perceived need.

Main reason for not enrolling in a prescription coverage plan

- I don’t use any or very many prescription medicines: 33%
- My needs are taken care of: 24%
- I can’t afford it: 15%
- It wouldn’t save me money: 14%
- It’s too complicated: 7%
- Not sure/Refused (VOL.): 8%

THOSE WITHOUT DRUG COVERAGE (N=272): You said you are not enrolled in a Medicare prescription drug plan. I’m going to read a list of reasons some seniors give for why they have not enrolled in a Medicare prescription drug plan. When I finish reading the list, I’d like you to tell me which one is the main reason you have not enrolled.
The idea of reducing Medicare plan choices is concerning to 7 in 10 enrollees.

Only 8% of enrollees would not be at all concerned with fewer options.

One of the key features of Medicare Part D is giving beneficiaries options so they can pick a plan that meets their health care needs. How concerned would you be if changes were made to reduce the number of choices available to you in Part D? Would you be very concerned, somewhat concerned, not too concerned, not at all concerned— or are you not sure?
Information and Knowledge
As of early August, fewer than 1 in 4 said they had received Medicare drug plan information. *Private insurers were the main providers of information.*

And have you received any information recently about Medicare prescription drug plans?

IF HEARD OR READ SOMETHING (22%, N=191): From whom did you receive information about Medicare prescription drug plans?

Base: Those enrolled in a Medicare drug plan (Stand-Alone or Medicare Advantage)
4 in 10 senior Internet users looked up information about Medicare plans on the web, while over a third visited Medicare.gov.

Do you personally use the Internet?

IF USE INTERNET (41%, N=397): Tell me if you have ever gone to this source for information to help in comparing Medicare health or prescription drug plans.

Base: Those enrolled in a Medicare drug plan (Stand-Alone or Medicare Advantage)
Plan providers and the *Medicare & You* handbook are top sources of information.

**Have used source**

- The Medicare & You handbook: 43%
- Your current Medicare prescription drug plan provider: 43%
- Other Medicare prescription drug plan providers: 17%
- AARP: 34%
- Your pharmacist: 34%
- Your doctor: 29%
- Family and friends: 28%
- Medicare’s toll-free number, 1-800-Medicare: 22%
- Another private organization: 14%
- Your state’s health insurance assistance program: 11%
- The Medicare Plan Finder: 10%
- Your state’s Office on Aging: 9%

Tell me if you have ever gone to that source for information to help in comparing Medicare health or prescription drug plans.

Base: (N=901) Those enrolled in a Medicare drug plan (Stand-Alone or Medicare Advantage)
Few know about Medicare’s 5-star quality ratings on the Medicare Plan Finder, or are aware of local Medicare counselors who can assist with plan comparisons.

Did you know that Medicare gives each plan a quality rating ranging from one to five stars?

- Not aware: 75%
- Aware: 23%
- Don’t know: 2%

Did you know that there are Medicare counselors in your state who you can call or visit to get help in comparing Medicare plans?

- Not aware: 62%
- Aware: 37%
- Don’t know: 1%

Base: (N=901) Those enrolled in a Medicare drug plan (Stand-Alone or Medicare Advantage)
Conclusions

1. Medicare Part D is a success story—across all demographic groups examined, beneficiaries are highly satisfied and feel peace of mind with their coverage. Most report that their plan is—
   - Meeting their expectations;
   - Affordable, covers the medicines they need, and is convenient to use;
   - Saving them money and giving them access to prescription medicines they might otherwise have difficulty getting.

2. For these reasons, most beneficiaries with Part D plans recommend Part D to others who are considering enrolling in a plan.

3. On the eve of 2014 Open Enrollment, more than a third plan to shop around and compare plans. Information about costs, coverage, and pharmacies they can use are important features enrollees consider when comparing plans.

4. Almost a third have switched plans since they first enrolled—and most say it was not difficult to make the switch. This should be encouraging to others interested in exploring their options.

5. There is an opportunity to raise awareness of personalized plan comparison help available from State Health Insurance Assistance Program (SHIP) counselors as well as the Medicare Plan Finder with its accompanying 5-star plan quality ratings.
