By the numbers: Medicare Part D

1,186,871

Medicare Part D beneficiaries in Georgia in 2018¹

403,262

Beneficiaries enrolled in Medicare Advantage prescription drug plans in 2017²

71

Number of Medicare Advantage plans available in 2018³

33%

Beneficiaries receiving Part D's Extra Help in 2018³

15%

Medicare beneficiaries as a percent of state population in 2015⁵

627,070

Beneficiaries enrolled in stand-alone prescription drug plans in 2017⁴

24

Number of Part D Plans available in 2018³

\$12.60

Lowest monthly premium for a prescription drug plan in 2018³

87%

Beneficiaries with access to Part D plan with lower premium than what they paid in 2017³

Medicare Part D is working well for beneficiaries and taxpayers...

- Surveys show that more than 8 in 10 Part D enrollees are satisfied with their coverage and say that their coverage works well.⁷
- In 2018, one third of all Part D stand-alone plans nationwide have no deductible.⁸
- Total Part D costs were 45%, or \$349 billion, less than initial projections for 2004-2013. Additionally, Part D drug spending was just 13.6% of total Medicare spending in 2018.⁹
- CBO changed its scoring methodology to reflect evidence that increased prescription drug use leads to offsetting reductions in Medicare spending for other medical services.¹⁰
- Part D helped expand drug coverage and improve adherence to medicines; gaining Medicare Part D prescription drug coverage was tied to an 8% decrease in hospital admissions for seniors overall, with higher reductions for certain conditions.¹¹
- A growing body of research finds reductions in mortality following the implementation of Part D. One study found, since the implementation of Part D in 2006, nearly 200,000 Medicare beneficiaries have lived at least one year longer with an average increase in longevity of 3.3 years.¹²
